

K-LOVE serves me by providing me with christian music in my college community. my hometown didn't have KLove, but my college town does, and it has had a tremendous effect on me by providing me with incouraging music in my local community.

Loosing KLove would absolutly have an effect on the community by removing a station that we support and believe in. we have a right to listen to music we choose. we choose KLove.

KLove has served this community since it was brought here, and it will continue to serve us. KLove provides music we believe in and encourages us to live for God, which always makes a community better.
